MEMORANDUM FOR: Executive Assistant to the DDA

VIA: Director of Logistics
Associate General Counsel for Logistics and
Procurement Law

STAT FROM: [REDACTED]
Chief, Procurement Division, OL

SUBJECT: Proposal from Robert Weinman, Sculptor

REFERENCE: DDA 86-1986 dated 20 November 1986

1. I have reviewed the subject proposal and see no particular problems with it. The procedures followed to date, i.e., contacting the National Sculpture Society to assist in identifying professional sculptors, narrowing the candidates to three, interviewing two possible sculptors, and identifying the candidate whose artistic capability best makes the statement the DCI wishes to make to Agency employees regarding General Donovan, have been patterned after the procedure followed by the Art-in-Architecture Program of the General Services Administration (GSA).

2. Due to the actions indicated above, the procurement is no longer a sole-source procurement. While full and open competition has not been sought, the same general procedures followed by GSA have been followed by this Agency.

3. A member of my staff has contacted the GSA to identify any unique clauses that they include in their contracts which should be incorporated in ours in addition to the items outlined in Mr. Weinman's proposal and those previously provided as standard to the industry.

STAT 4. If you have any additional questions, please call me
